NEEC Intelligence Requirements

- REFERENCES:
- (a) Memorandum for IAC Representatives from DAD/NE, dated 30 June 1958, (same subject).
 - (b) Memorandum for the DCI from Director, Net Evaluation Subcommittee, NEEC, dated 12 June 1958, Subject: Intelligence Requirements of the NEEC for 1958-59. (Attached to ref. a), IAC-D-122.
 - (c) Memorandum for IAC Representatives, from DAD/NE, dated 11 July 1958, Subject: Procedure for Handling NEEC Intelligence Requirements.

1. References a and b request the review and updating of the material in several National Intelligence Estimates for the purposes of the NEEC. Of the several major problems to be considered in satisfying the NEEC requirements, only two apply directly to ORR; they are the numbers of operational nuclear delivery vehicles which the Soviet Bloc will have in mid-1962 and the Soviet Bloc air defenses as of mid-1962.

2. ORR has been asked to participate in the two ad hoc working groups which will consider these problems as established by reference c. Since the parts of these problems which will be most subject to change are those involving guided missiles, the ORR representatives to these working groups have been selected from the Guided Missiles Branch; however, support from other branches of the Industrial Division and the Services Division may be required.

3. It should be noted that the completion date for these studies is 15 August 1958; therefore, nothing more than the most significant changes to existing estimates can be used to answer the NEEC requirement.

SUBJECT: NESC Intelligence Requirements

4. Attached is a project action memorandum which covers the foreseeable tasks which ORR will be required to fulfill; however, others may be added as the work of the ad hoc working groups progresses.
